

HIVE

Dalebrook[®]

REUSABLE FOOD TO GO

WWW.DALEBROOK.COM

HIVE MIND

HIVE is Dalebrook's reusable food display solution. It's made with food grade germ-resistant melamine and matches an industry-standard capacity for containing food.

Its clear Tritan re-usable lids seal in the food to keep meals untouched and fresher for longer. Their design lets multiple meals stack for shelf displays.

OUR COMMITMENT

As a business, Dalebrook has made a conscious decision to move towards a more environmentally secure culture, thus launching into the market a reusable solution with HIVE supporting our commitment to sustainability.

HIVE is the solution to tackle single-use products within the industry and will provide operators with a sustainable image.

CURRENT SINGLE-USE ISSUES

Single-use packaging is expensive and results in large amount of waste.

Cardboard or plastic take away boxes do not keep the food warm.

Large storage space is needed to store single-use packaging.

Single-use boxes have a high cost due to transportation

DALEBROOK SOLUTION

HIVE cuts down the cost of waste management, transportation, packaging.

Melamine is the perfect material for food use as it has a highly thermal insulation property.

HIVE is perfectly stackable with or without a lid and saves storage space.

Fewer deliveries: With HIVE in circulation, you no longer require constant deliveries of disposable stock. Helping reduce pollution.

CORE VALUES BEHIND HIVE

FUNCTIONAL HIVE

ARTISTIC HIVE

HUNGER-RELIEVING HIVE

Understood by all. HIVE is intuitive, friendly and functional for both diners and back of house staff.

Hive is easy to pack, clean, store and serve food in.

HIVE is the canvas, and it's the food that is the art.

We aimed for a responsible, practical, and timeless design capable of working in multiple environments and encouraged the reuse message.

HIVE's significant purpose is to feed people and rid them of hunger. At the same time, creating engagement and focus to their mealtimes. Eating with your eyes is undoubtedly true, but you still need dinnerware that can keep up with your work lifestyle.

CHOOSE TO REUSE

According to estimates, England uses **1.1 billion** single-use plates.

In the UK, it's estimated that consumers who purchase takeaway for lunch generate about 11 billion tonnes of packaging waste a year.

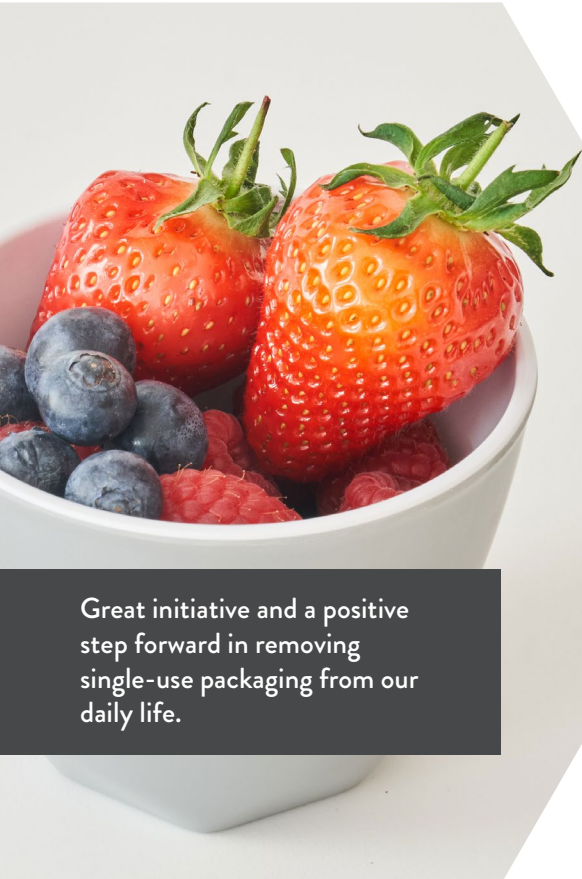

A SINGLE HIVE SALAD BOWL ONLY TAKES **12 USES** TO BREAKEVEN.
