

**NEW FROM LOCKHART**

**ENGLISH  
LEGISLATION  
COMING  
SOON!**

**ARE YOU PREPARED**

# **FOR WASTE MANAGEMENT LEGISLATION?**

In England, from 31st March 2025, new legislation will mean businesses with more than 10 full-time employees must separate "recycling relevant waste" prior to collection for processing off site.

Businesses will be responsible for the waste collected on and transported from their premises, meaning dry recyclables (which can be grouped together), food waste, and general waste must be separated.

**MIXED DRY RECYCLING**

**Glass**

**Paper**

**Plastic**

**Metal**

**Cardboard**

**FOOD**

**PLASTIC FILM**

(From March 2027)

Businesses will not be able to use food waste disposal equipment (for example macerators) or other forms of food waste treatment equipment (for example dewatering or enzyme digesters) to discharge food waste or liquid derived from food waste to a drain or sewer.

# RECYCLING PRODUCT SOLUTIONS

All of our waste and recycling containers are manufactured to stand the test of time and come with up to 10 year warranties to provide you with added peace of mind.

RCP has a broad range of containers & trucks to support your business with internal waste collection and movement, maximising recycling and minimising contamination.

## WASTE DISPOSAL

Where waste is created, it must also be collected. Our product solutions help to centralise the accumulation of waste.

1

FRONT OF HOUSE

SLIM JIM  
RECYCLING  
STATION

CONFIGURE

SLIM JIM  
STEP-ON

### DECORATIVE RECYCLING

Modular, colour-coded solutions for collecting and recycling multiple waste streams at any facility.

### STEP-ON CONTAINERS

Sealed lid containers that isolate germs and odours with risk-reducing foot operation to reduce contamination touchpoints.

2

BACK OF HOUSE

SLIM JIM  
VENTED

BRUTE

### SLIM JIM CONTAINERS

High capacity back-of-house containers that collect waste where it accumulates with a bag cinch system.

### WASTE STORAGE

Durable units designed to store waste from multiple points around a facility prior to being moved elsewhere.

3

WASTE MOVEMENT

## WASTE MANAGEMENT

Once waste has accumulated, it must be aggregated and moved to collection points ready to be taken off-site.

### HIGH CAPACITY TRUCKS

Large volume, mobile containers that move collected waste from back of house storage to collection points for off-site processing.
